

Day	Start	End	Room	Session Title	Audience	Full Description
Tuesday	11:00 AM	12:00 PM	Hearthside	LX Roadmap	LX	Join this session to hear LX product management discuss LX's development roadmap, and overall product investment strategy. You'll learn about updates to the product core coming soon as well, technology, and user experience improvements.
Tuesday	11:00 AM	12:00 PM	Oakton Ballroom	XA Roadmap	XA	With Release 10 widely adopted by XA customers, all eyes are turning towards Release 11 and beyond. That includes major upgrades to the underlying tech stack, foundational improvements to XA functionality, and opening doors to rapid future enhancement. This session will provide a view into releases after 11.0 for the first time.
Tuesday	11:00 AM	12:00 PM	Woodland B	System21 Roadmap	System21	Join this session to hear System21 product management discuss the current development roadmap, and overall product investment strategy. You'll learn about updates to the product core as well as integrations, technology, and user experience improvements.
Tuesday	1:15 PM	2:00 PM	Fieldstone East	XA Release 11 - Upgrade Considerations	XA	Upgrading to Release 11 will involve some significant transitions, including the end of green screen. This session will go through upgrade considerations to assist with future planning.
Tuesday	1:15 PM	2:00 PM	Fieldstone West	Purchase Order Approval Process	XA	Full demo on use and configuration, using Infor OS, SiW, ION, Systemlink, Workflows and your ERP. The Power of the Tech Stack
Tuesday	1:15 PM	2:00 PM	Hearthside	LX Community Gathering	LX	Meeting of the members, introduction to the tracks, Q&A and any other business
Tuesday	1:15 PM	2:00 PM	Lapham 1	Make the case not to change your ERP	XA	"The grass is greener on the other side." That is a true saying that applies to companies who want to change ERP systems. Some people think if the company "just" changes to a new ERP system, all their problems will be solved. Many XA I/T Directors have heard this before. But, will the grass really be greener? What are the benefits? How much money will the company save? Will the company really gain anything? Not only is changing systems very expensive in terms of software and services, but there are huge costs because of disruptions to the business. What might be your options? How do you position your company to stay with the iSeries and your "legacy" ERP system, which is a great system? And why should you stay on it? Come to this session to learn how you could save your company millions of dollars and also promote "upgrading" your current system.
Tuesday	1:15 PM	2:00 PM	Lapham 2	NetLink 101	XA	With XA R10, Net-Link was greatly enhanced to allow most of the functionality that exists in PowerLink has now be brought into Net-Link. This 'Net-Link 101' session will introduce the Net-Link features of: <ul style="list-style-type: none"> <li>• Net-Link Overview/Application Cards</li> <li>• Net-Link navigation tips</li> <li>• Net-Link buttons</li> <li>• Header bar with Filter Row</li> <li>• Lists <ul style="list-style-type: none"> <li>o Views (with freezing a column &amp; Presentation Schemes)</li> <li>o Subsets</li> <li>o Sorts</li> </ul> </li> <li>• Setting Favorites</li> <li>• Shortcut Keys (Control + x)</li> </ul>
Tuesday	1:15 PM	2:00 PM	Lapham 3	Paper-Less - Pick to Ship - Electronic Picking and more for XA Order Fulfillment	XA	The COM module in Infor XA includes the traditional green screen Pick, Pack and Ship module. Many XA customers find the need to enhance these functions substantially, to address their unique need for order fulfillment. ISE has developed a suite of functionality, deeply aligned with COM, to electronically streamline the picking and shipping process. Dave will show key functionality within the Pick-to-Ship tool, aligned to dramatically optimizing your order fulfillment processes.

Day	Start	End	Room	Session Title	Audience	Full Description
Tuesday	1:15 PM	2:00 PM	Lapham 4	Infor Quality Management – Full Quality Management Suite for Infor XA	XA	Infor Quality Management (IQM) is a proven Infor solution, now being brought forward into the XA space. IQM is a comprehensive Quality Management application that offers a complete quality assurance solution for manufacturing. IQM helps to facilitate the execution of daily quality processes. This session will focus on inspection, nonconformance, and corrective actions along with a general introduction to all IQM modules.
Tuesday	1:15 PM	2:00 PM	Oakton Ballroom	IBM i Modernization with IDF case studies	All	Michael will present an actual customer case to give an insight into real world modernization using IDF
Tuesday	1:15 PM	2:00 PM	Woodland A	Upgrade, Modernize, Now What?	All	How to leverage Infor and Partner solutions to enhance your core ERP.
Tuesday	1:15 PM	2:00 PM	Woodland B	Extending the value of your ERP with Infor Cloud Supply Chain Planning	All	This session will be a detailed look at Infor Demand & Inventory Planning and Infor Optimized Supply Planning that extends the planning capabilities of iSeries ERPs. We'll take a detailed look at statistical forecasting, ABC analysis, and service Level strategies with associated inventory investments. We'll also review the capabilities of Infor Optimized Supply Planning that performs Master Production Scheduling, Distribution Requirements Planning, Capacity Planning and Material Requirements Planning in a single run.
Tuesday	1:15 PM	2:00 PM	Woodland C	Top IBM i Security Challenges Facing Organizations Today	All	Organizations face many challenges in today's environment. During this session Carol Woodbury and Alan Hamm will provide a high level discussion of those challenges, why they exist and what to do about them. They will then discuss the key areas of IBM i security that you want to pay close attention to, to ensure your organization is not left vulnerable.
Tuesday	1:15 PM	2:00 PM	Woodland D	Updates are nasty! Here's how to make them nice.	All	No one looks forward to updating. We take a look at the potential impact of updates and how testing end-to-end across your tech landscape can make upgrading easier, while ensuring business continuity. Come and find out how easy it is to make sure everything works as expected after every update, learn best practices and hear successful customer stories.
Tuesday	2:15 PM	3:00 PM	Fieldstone East	Life after XA Release 11.0 – Rapid enhancements and your input	XA	After Release 11.0, Infor is free to enhance XA rapidly. To begin detailed planning, XA Product Management is looking for your input on priorities.
Tuesday	2:15 PM	3:00 PM	Fieldstone West	Choosing the Correct Planning & Scheduling Approach for Your Operations	All	In today's manufacturing environment, there are a number of planning and scheduling approaches to choose from. Some are based on Lean Principles, others on The Theory of Constraints as well as other options. Some are manual and some are also supported by very specific applications. Depending on the nature of your manufacturing products and processes, certain solutions will give you better long-term results. This interactive workshop is focused on presenting an overview of the different options available and their applicability in your manufacturing world.
Tuesday	2:15 PM	3:00 PM	Hearthside	Modernizing on LX, why are you still running green screen?	LX	LX 8.3.5 and 8.4.X now provide a web based user experience that is more modern and intuitive than ever. See how the LX user interface has evolved and how it now provides capabilities far beyond what is available in green screen.
Tuesday	2:15 PM	3:00 PM	Lapham 1	Interform - New Output Strategies using IDF	All	Infor is changing output strategy and the future is XML. Join and learn what that mean to customers and how to address the new future. During the session we will present how InterForm & Infor from a brand new output concept delivers a holistic solution connecting ERP, IDM and output management in one state-of-the art solution. Lots of examples, customer stories and a view in to what is coming up next. The session is customers using XA, LX, IDF and Output management fans.

Day	Start	End	Room	Session Title	Audience	Full Description
Tuesday	2:15 PM	3:00 PM	Lapham 2	NetLink 102	XA	<p>The 'Net-Link 102' session is a continuation of the Net-Link 101 session. The topics that will be covered in this session are:</p> <ul style="list-style-type: none"> <li>• Cards &amp; Card files                             <ul style="list-style-type: none"> <li>o Attribute</li> <li>o List</li> <li>o Compound</li> <li>o Overview</li> <li>o Related</li> <li>o Tabbed</li> <li>o Graph</li> </ul> </li> <li>• Templates</li> <li>• Split Screens (replaces Workbenches)</li> <li>• Workspace</li> <li>• Attachments</li> <li>• Exporting to Excel</li> <li>• Setting Preferences</li> </ul>
Tuesday	2:15 PM	3:00 PM	Lapham 3	Completing, Extending, and Standardizing CPQ's Integration with XA Using the ISE UIG"	XA	Join us as we look at the Nuts and Bolts of the Integration linking Infor EQ and CPQ Configurator with Infor XA. The tremendous strengths and abilities of this integration will be highlighted, as well as the opportunities that exist to Complete, Extend, and Standardize this Integration using ISE's Unique Item Generation ('UIG') tool. The UIG's Flexible Customization Options and Detailed Logging Features will also be covered.
Tuesday	2:15 PM	3:00 PM	Lapham 4	Infor Analytics Future State: The combined strength of Birst and Infor OS	All	Birst is Infor's modern analytics platform enabling data-driven decision-making and better outcomes. Birst can be strategically implemented stand-alone. It can also be implemented with the goal leveraging continually enhanced Infor OS capabilities including Infor OS Portal, Data Fabric, Infor Document Management, and more. Join us to explore the capabilities of Birst, the combined power of Infor OS and Birst, and how your company can benefit from the actionable insights that this provides.
Tuesday	2:15 PM	3:00 PM	Oakton Ballroom	IDF Architecture – rolling out the leading edge 5th generation (Business Perspective)	All	For newer users of the IDF Architecture for XA, LX and system 21 - Phil Joseph will introduce the new version of the architecture that is coming for all three ERP products
Tuesday	2:15 PM	3:00 PM	Woodland A	EGLi - It Is Time to Modernize Your LX General Ledger	All	<p>Enterprise General Ledger for System i, or EGLi, is an event-driven general ledger application designed to centralize and manage general ledger information within an organization. It is the next step in the evolution of General Ledger processing in the LX solution. Based on the Infor Development Framework, EGLi supports a well-rounded user experience for today and tomorrow.</p> <p>Topics: EGLi is easy to understand because it is a redesign of CEA within IDF. Conversion from CEA to EGLi is proven and expedient. Smooth Learning Flow for Current CEA Users</p>
Tuesday	2:15 PM	3:00 PM	Woodland B	System21, IDF and Uploadia	System21	UPLOADIA a tool to create and modify any System21 data via simple spreadsheets. Working examples for the presentation include item masters, item stockroom, item kits and customer pricing. The walkthrough will include examples of how IDF Integrator and System Link are an essential tool for all System21 customers.

Day	Start	End	Room	Session Title	Audience	Full Description
Tuesday	2:15 PM	3:00 PM	Woodland C	The Basics of IBM i Security – with a Modern Twist	All	Whether you are new to IBM i security, need a refresher or are unfamiliar with the new ways to access the system, this session is for you! During this session Carol Woodbury will discuss the basic tenants of IBM i security (security-relevant system values, user profile management, and object permissions) using the modern interfaces of (new) Navigator for i, Access Client Solutions (ACS) and Run SQL Scripts. These interfaces make IBM i Security much more approachable and manageable. Questions and discussions about IBM i Security are welcome!
Tuesday	2:15 PM	3:00 PM	Woodland D	HxGN EAM, Building a Comprehensive Maintenance Program	All	Every organization benefits from maintaining production, facility and fleet assets. Through HxGN EAM by Hexagon ALI, your company can realize a boost to the bottom line through effective Enterprise Asset Management. Learn more about how HxGN EAM will help you build an effective maintenance and asset management program to keep your equipment running longer and more efficiently.
Tuesday	3:15 PM	4:00 PM	Fieldstone East	10 things you didn't know about integrator	All	10 things you didn't know about integrator, System-Assigned Keys, Maintenance History, User Exits, tips for getting the most out of EI and avoid rookie mistakes.
Tuesday	3:15 PM	4:00 PM	Fieldstone West	Extending the value of your ERP with Infor WMS (Warehouse automation and driving efficiencies)	XA	Infor's Warehouse Management System (WMS) is a Gartner Magic Quadrant leader. This session will detail the unique capabilities within Infor's WMS that support the automation of Finished Goods and Raw Materials movement within both a distribution center and manufacturing warehouse. Topics we will cover include streamlined receiving against purchase orders and ASN's, stocking strategies within the warehouse, and Trailer/Flatbed load optimization.
Tuesday	3:15 PM	4:00 PM	Hearthside	Webtop 4.8, how you can improve your user experience	LX	Learn how to personalize traditional LX screens through Webtop 4.8. This release provides the ability to display data in a more modern grid format. This grid capability allows for re-ordering of columns, scrolling capability to show more data, and much more.
Tuesday	3:15 PM	4:00 PM	Lapham 1	Round Table - Power User's	XA	What is a power user? What do they do? Onboarding new users
Tuesday	3:15 PM	4:00 PM	Lapham 2	Net-Link: What to expect	XA	What can you expect if you move from Power-Link to Net-Link? Mostly it's the same, but some changes were made to fit browser technology. Some were made to conform to modern UI standards and others were made to streamline the workflow. Besides all that, there are new features in Net-Link that aren't in Power-Link. All of this will all be explained in this session.
Tuesday	3:15 PM	4:00 PM	Lapham 3	The Penco Products Success Story – Modernized ERP with XA10	XA	Penco Products recently migrated from SAP to XA R10 Net-Link with SiWA, Infor Home Pages, Enterprise Financials, VPi, Material Logistics, CPQ, Infor Document Management and Interform. No green screens anywhere! They also added some cool, creative enhancements that didn't come out-of-the-box to help their users become more productive. Join us to hear how Penco accomplished so much so quickly, along with Penco's future plans to continue leveraging all that XA R10, Interform, CPQ Cloud and the Infor OS Cloud Technology Stack have to offer.
Tuesday	3:15 PM	4:00 PM	Lapham 4	Birst Analytics: Unlock the Power of Your Data	All	Birst is Infor's modern analytics platform enabling data-driven decision-making and better outcomes. Every day, companies gather ever increasing amounts of data but find it challenging and time-consuming to present this data in timely strategic reporting. Join this session to understand how other Infor customers are leveraging Birst and how quickly Birst can be implemented for your organization. The session will focus on strategic Birst customer reporting examples. These examples will be highlighted through interactive display of Birst capabilities.
Tuesday	3:15 PM	4:00 PM	Oakton Ballroom	Infor Development Framework with Infor OS	All	This session will cover, at a high level, the capabilities of Infor Platform Technologies and what is included in this solution set. We will discuss a few case studies of how our customers have leveraged this platform to modernize their deployments, driven efficiencies, and recognized productivity gains.

Day	Start	End	Room	Session Title	Audience	Full Description
Tuesday	3:15 PM	4:00 PM	Woodland A	EGLi In Action	LX	Enterprise General Ledger for System i, or EGLi provides a powerful user friendly experience based on the Infor Development Framework (IDF). In this session we will demonstrate the distinct ways financial transactions can be posted to the LX General Ledger with EGLi. Also included is an introduction to the IDF reporting capabilities and opportunities.  Topics: Posting manual journal using the EGLi Journal Upload Add-in in Excel. Posting from LX Subsystems External Transactions
Tuesday	3:15 PM	4:00 PM	Woodland B	What's New in F9 Version 6	All	
Tuesday	3:15 PM	4:00 PM	Woodland C	Best Practices for the IBM i Security Administrator	All	During this session Carol Woodbury and Alan Hamm will discuss the tasks and practices an IBM i Security or System Administrator needs to perform on a regular basis to ensure the system is secure. They will discuss why each practice is important as well as the risk of not performing the task. But ... this session is not just theory! They will also provide the exact commands or Run SQL Scripts that you can use to implement these practices in your own environment.
Tuesday	3:15 PM	4:00 PM	Woodland D	The power of System-Link, Excel and XA: interactive & automated data uploads	XA	MJR will show up the possibilities with SystemLink and Infor XA to speed up your data handling with the automated Excel upload. We will go through the process together and show the benefits
Tuesday	4:15 PM	5:15 PM	Hearthside	LX User Management with Infor OS	LX	How to perform initial load of LX users into Infor OS and then manage them.
Tuesday	4:15 PM	5:15 PM	Oakton Ballroom	XA Product Strategy Update—An Even Brighter Future for XA in the Oakton Ballroom	XA	In the past 12-18 months, Infor has made many important and strategic investments in XA. From the creation of Compass; to onboarding significant new resources; to greatly enhancing Net-Link; to starting a “re-write” of XA’s system infrastructure; to utilizing contemporary integration standards; to taking advantage of multi-processor capabilities of the iSeries; to keeping XA up-to-date with new technologies; and other actions. Many of these developments are happening “behind the scenes,” yet they are perhaps the most important updates for XA in a decade—and they have positive impacts on XA and XA’s future. Moreover, these developments are being done non-disruptively while also protecting customers’ investments.  Phil Joseph, former XA Product Manager and current IDF Product Manager, will share how IDF is undergoing a re-write that will update and modernize XA. Jay Allison, Vice President of Compass Americas, will share how Infor actions came together as “strategic fit” for XA’s future and will highlight several items that confirm Infor’s commitment to XA.

Day	Start	End	Room	Session Title	Audience	Full Description
Tuesday	4:15 PM	5:15 PM	Woodland A	Add more detail to your GL by Building Business Specific Macros	LX	<p>Macros in EGLi offer several significant advantages and benefits to your organization. There are a wide-ranging predefined macros, that can be augmented with user defined, or configurable macros. We will discuss the breadth of predefined macros along the opportunities available when building business specific configurable macros.</p> <p>Like predefined macros, you can use configurable macros to define the following parts of a model:                      Account segment                      Amount that posts to an account balance                      Reference field                      Analysis field</p> <p>Configurable Macro Examples:                      Calculations                      Substrings                      Concatenated Macros</p>
Tuesday	4:15 PM	5:15 PM	Woodland B	System21 Global Services Update	System21	Find out what's new in the System21 Services world. The Team - People are our greatest asset so learn about the skills you now have access to due to the formation of the new Global team. The Customers – discover what is happening in the customer base around the world. What are other System21 customers working with Infor Services on? The Upgrade Process - let's talk you through the upgrade process to remove any unknowns and crystallise the process.
Tuesday	4:15 PM	5:15 PM	Woodland C	IBM i Strategy - Roadmap and Innovation	All	
Tuesday	4:15 PM	5:15 PM	Woodland D	IBM Technology - "As a Service" and moved to the Cloud, is it right for you?	All	Every company is proceeding with a path for cloud-based and outsourced strategies for their systems. But what about your IBM server? We'll discuss your options. Do you stay on premise for Production, move DR and Backups to the Cloud? What about your resources to support your systems? Is it feasible to outsource? What are key considerations? We'll discuss all this and more.
Wednesday	7:30 AM	8:00 AM	Woodland A	Credit Card Processing in Infor XA	XA	Using "green screen", CSM or COM_Net2, credit card processing in XA can be secure, easy and fully integrated. Join us to learn how XA_Card_Connect -AN can streamline your processes and help your PCI compliance.
Wednesday	7:30 AM	8:00 AM	Woodland B	Tech Talk – Your EDI Questions Answered	All	Ask the expert! Our Chief Technology Officer and EDI guru, Phil Harley will be on hand to share his expertise and answer your technical questions related to EDI in an informal forum.
Wednesday	7:30 AM	8:00 AM	Woodland C	Interform - New Output Strategies using IDF	All	Infor is changing output strategy and the future is XML. Join and learn what that mean to customers and how to address the new future. During the session we will present how InterForm & Infor from a brand new output concept delivers a holistic solution connecting ERP, IDM and output management in one state-of-the art solution. Lots of examples, customer stories and a view in to what is coming up next. The session is customers using XA, LX, IDF and Output management fans.
Wednesday	7:30 AM	8:00 AM	Woodland D	See the power of Outlook email and calendar integration with Infor CRM SLX	All	Interested in seeing a CRM solution that can work inside Outlook and integrate with your email and calendar? If so, then join us for how Infor CRM SLX, through Xbar, can improve your organization's ability to communicate by utilizing the main tool you already have – email! Presented by Infor's only Gold CRM Partner, this session will show you how Xbar works and what it can do between Infor CRM SLX, email and calendar integrations through a plug-in already included with the solution at no extra cost.

Day	Start	End	Room	Session Title	Audience	Full Description
Wednesday	8:15 AM	9:30 AM	Fieldstone East & West	Planning/Scheduling Part 1	XA	XA has multiple planning systems and one to fit your needs! So why is planning so difficult? These extended sessions will go into some detail that is imperative to understand about planning. What are the prerequisites? What is an Order Policy Code? Why is order-point in materials management rather than MRP? How do we implement planning and be successful? This full day session gives us the time to review the systems and discuss real options. We will go into enough detail that you can take this home and make a difference in your company's planning activities.
Wednesday	8:15 AM	9:30 AM	Hearthside	Finance Part 1 - General Finance	XA	What are the differences between AM, IFM, Efin. Explore day to day processing for accounts payable, accounts receivable and general accounting.
Wednesday	8:15 AM	9:00 AM	Lapham 1	Key Considerations around High Availability and Disaster Recovery Strategies for your IBM footprint.	All	The need for secure and reliable HA and DR strategies has never been greater. But where do you start? What does the business need? What does the IT team need? On Premise or in the Cloud. Self-managed or outsourced? What outcomes are truly attainable, and how do you set expectations with company leadership? We'll discuss key topics surrounding HA and DR strategies, and how to get started.
Wednesday	8:15 AM	9:30 AM	Lapham 2	Procurement Part 1	XA	This session will explore the advanced topics involving XA procurement. Major topics will include receiving, QC, interplant (Material Logistics) multi-sourcing, outside operations, and PO close-out & purge.  Additional topics will include: -Vendor Managed Inventory -Blanket vs Discrete PO's -FIFO and shelf-life -Vendor Returns -ASN's -MRO items -Auto Release -Warning and error messages -Status Codes -Make/buy items -Order point vs MRP
Wednesday	8:15 AM	9:30 AM	Lapham 3	Inventory Part 1	XA	Inventory: the foundation of everything in XA (or any ERP). We are all unique with our products, but most of our processes are based in common practices. We'll spend time talking about different types of inventory, tracking inventory, consigning inventory, having serial numbers, negative inventory, syncing inventory with our General Ledgers, and lots more. This interactive all-day session will get into real discussions of what practices are important to you. When do we need batch-lot? Does inspect on receipt mean quality control? Come share your successes and your issues in a group discussion session to help improve all of our inventory tracking. - Cycle Counting - How is it controlled? - Multiple locations for an item and how to cycle count? - Best practices
Wednesday	8:15 AM	9:30 AM	Lapham 4	EPDM Part 1	XA	EPDM Deep dive – Item Process file, effectivity dates, drag and drop maint, simulation sites, alternate processes, shared routings, Facility fields that drive capacity or operational due dates, simulation sites, Implementation status, offline load from PLM systems - outside services

Day	Start	End	Room	Session Title	Audience	Full Description
Wednesday	8:15 AM	9:00 AM	Oakton Ballroom	Fresche Solutions and Infor - Modernization Strategies on IBM i and Infor IDF	All	
Wednesday	8:15 AM	9:00 AM	Woodland A	Advanced GL Model Development	LX	Advanced model development in the context of EGLI involves sophisticated approaches to designing, structuring, and utilizing financial configurations for more complex and specialized processing. These techniques enable organizations to achieve greater flexibility, accuracy, and efficiency in their financial processes.  Topics: Intercompany Postings Allocations Posting to multiple Books and Ledgers
Wednesday	8:15 AM	9:00 AM	Woodland B	System21 AFI	System21	AFI is designed to take transactions in an application that result in financial movements. Session will outline the benefits and advantages of AFI to create GL journals to post to specific accounts in the GL based on data surrounding the movement. Take a transaction from one application, link a transaction to additional data, posts to targeted accounts in the GL using rules based on the available data and more.
Wednesday	8:15 AM	9:00 AM	Woodland C	Top 10: Favorite IDF v10 features	LX	Hear our Top Ten list of favorite IDF V10 features and tricks
Wednesday	8:15 AM	9:00 AM	Woodland D	COM_Net2 CX – The Customer Portal for XA (and possibly LX and 21)	All	More than simply a web store, COM_Net2 CX v12 is a complete sell-side portal for XA. For eCommerce, it provides on-line order entry, quoting, order status/tracking, and electronic catalogs for B2B and B2C. Extending past eCommerce, it is also a secure document portal and allows reprinting of invoices and online bill-pay. With implementation measured in days ...not months, and fully integrated to XA, COM_Net2 leverages existing XA COM/CSM data and business logic. Fully integrated with Infor CPQ and SystemLink, customers or salesreps can place orders, quotes and generate proposals for complex configured items and/or stock items. Join us to hear more about this proven Infor solution and more exciting new functionality in v12 like Part Chaser®!
Wednesday	9:15 AM	10:00 AM	Lapham 1	Disaster Recovery – Defining and Setting Expectations and Strategies for your Company	All	The ERP application on the IBM i platform is extremely stable. But your business has changed, and your executives have asked for a DR strategy. Where do you start, what will it cost, who will make it work, how many resources are required, on premise or in the cloud? We'll cover all these questions and more.
Wednesday	9:15 AM	10:00 AM	Oakton Ballroom	Fresche Solutions, The Infor Partner for the IBMi SaaS Cloud	All	Fresche Solutions is a certified partner for for Infor, with long standing relationships with both IBM and Infor. We provide a foundation for the Infor SaaS offerings on the IBM platform, and many hosted options for customers, large and small. We'll discuss the full suite of Fresche offerings, our extensive infrastructure, and our ability to address the needs of even the most complicated environments.
Wednesday	9:15 AM	10:00 AM	Woodland A	Cost Roll	LX	Using the basic cost roll tools: Report of items without costs Roll costs from component items to the parent      Load standard labor/material/overhead costs Cost set maintenance Pre-defined sets withing the 99 cost sets Cost bucket maintenance Work center maintenance
Wednesday	9:15 AM	10:00 AM	Woodland B	System21 and Infor OS	System21	System21 and Infor OS

Day	Start	End	Room	Session Title	Audience	Full Description
Wednesday	9:15 AM	10:00 AM	Woodland C	Developing Custom IDF Views for Enhanced MRP Planning	LX	Business Case Using Infor LX Enterprise Integrator, SQL and Custom Files to: Improve visibility and access to MRP planning data Allow customization of planning data in monthly, weekly and daily views Allow for easier portability of data (e.g., Excel, PDF) Better visualization of supply vs demand data
Wednesday	9:15 AM	10:00 AM	Woodland D	Transportation Management	All	Learn how to lower freight costs and improve the efficiency of you transportation operation from ARTC Logistics (an Infor Solution Partner). This session will demonstrate and describe the benefits of implementing an integrated traffic management system with your Infor ERP or Warehouse Management system. Both planning and execution based processes will be highlighted. Topics will include: carrier selection, load planning, freight rating, shipment tracking, carrier payment, parcel manifesting, customer invoicing, analysis reporting and carrier documentation.
Wednesday	9:45 AM	11:00 AM	Fieldstone East & West	Planning/Scheduling Part 2	XA	Planning/Scheduling - Continued
Wednesday	9:45 AM	11:00 AM	Hearthside	Finance Part 2 - Costing	XA	Explore the different costing methods in XA and how the inputs determine how costs are calculated.
Wednesday	9:45 AM	11:00 AM	Lapham 2	Procurement Part 2	XA	Procurement Continued - This session will explore the advanced topics involving XA procurement. Major topics will include receiving, QC, interplant (Material Logistics) multi-sourcing, outside operations, and PO close-out & purge.  Additional topics will include: -Vendor Managed Inventory -Blanket vs Discrete PO's -FIFO and shelf-life -Vendor Returns -ASN's -MRO items -Auto Release -Warning and error messages -Status Codes -Make/buy items -Order point vs MRP
Wednesday	9:45 AM	11:00 AM	Lapham 3	Inventory Part 2	XA	- Customer Supplied Inventory in XA - Best practices - Consigned Inventory - ML for Material movement between sites or how handle movement between sites that takes time (loaded on truck) - Backflushing (and impact of BOM accuracy)
Wednesday	9:45 AM	11:00 AM	Lapham 4	EPDM Part 2	XA	EPDM - Continued
Wednesday	10:15 AM	11:00 AM	Lapham 1	XA Documentation, Education and Training Upgrades	XA	Infor is re-investing in documentation and training for XA and IDF. This session will introduce the new resources available and show Infor's plans for further improvements in this critical area.
Wednesday	10:15 AM	11:00 AM	Oakton Ballroom	IBMi Cloud for Modernization	All	New to the cloud concept? Strongly considering IBM i cloud but don't know enough about it? Worried about IBM i resources or about to purchase new hardware? Chris Hillock, the IBM i Cloud Leader will define the cloud, what it means to you and how to get there, as well as answer your questions.

Day	Start	End	Room	Session Title	Audience	Full Description
Wednesday	10:15 AM	11:00 AM	Woodland A	Specialized Reporting with IDF	LX	Create custom reports Balance/Top 10  Create a sample dash - AR, AP, Examples  Build a top 20 graph example
Wednesday	10:15 AM	11:00 AM	Woodland B	Integrating XA with Infor OS ION and Infor Edge applications Using XML BODs	XA	Join us as we take a tour of XA's extensive built-in features that allow data from XA and related custom business objects to be published to Infor OS ION to trigger ION Workflows, Monitors, and Alarms. This data can also be routed by ION to other applications, including all the Infor Edge Applications that integrate with XA. Learn about techniques to enhance both the publishing of outbound XML BODs and the processing of incoming XML BODs, along with how to use System-Link to programmatically invoke the publishing of an outbound XML BOD.
Wednesday	10:15 AM	11:00 AM	Woodland C	LX Integration Tools	LX	So many integration tools! How are people using them, and are there clear use cases to recommend one vs the other?
Wednesday	10:15 AM	11:00 AM	Woodland D	SPS Commerce – Full-Service EDI for Infor	All	Is EDI a core competency for you? Learn why discrete manufacturers choose SPS Commerce Fulfillment, featuring a full-service, cloud-based network approach to EDI specifically for Infor. Boost efficiency and productivity by automating the process and partnering with the most broadly adopted EDI platform across the globe.
Wednesday	11:15 AM	12:00 PM	Fieldstone East & West	EFIN Essentials Toolkit: a Guide Product with 3 important enhancements to XA's Enterprise Financials (EFIN)	XA	EXTEND & ENHANCE Infor XA'S ENTERPRISE FINANCIALS: Join Guide Technologies for an overview of Guide's EFIN Essentials Toolkit for Infor XA. EFIN Essentials is one solution that contains 3 products to maximize your XA investment and enhance XA EFIN capabilities. During this session, attendees will learn why EFIN Essentials is a logical and robust addition to XA and how it can improve productivity, accuracy, and efficiency in the financial management of your business. The EFIN Essentials Toolkit is a set of utilities that extend the capabilities of the XA Enterprise Financials (EFIN) application with functionality that many customers need but are not available through EFIN (these products can also be used by IFM Customers), including: Bank File Utility, Bank Reconciliation and Personal Ledger Aging.
Wednesday	11:15 AM	12:00 PM	Hearthside	Five Steps to getting compliance done right and reducing the risk of an audit!	All	Understanding the ins and outs of tax compliance can be tricky for even the savviest businesses. Getting it right is critical... and it isn't easy. Knowing where you need to collect tax, collecting the correct amount, and most importantly, properly documenting exempt sales, are all key stages in the compliance process. If done manually, some steps often get overlooked or handled incorrectly – which can lead to serious penalties and fees. Join Avalara to learn the five steps to getting compliance done right, so you can avoid an audit!
Wednesday	11:15 AM	12:00 PM	Lapham 1	Accounts Receivable & Cashflow Automation:	All	Built on seamless integration between Banks and ERP's, Cashbook automates complex financial processes for companies with high volume transactions. We offer solutions in Cash Application Automation, Collections & Deductions Management, Accounts Payable Automation, and Bank Reconciliation Automation. Proven to increase cash flow, eliminate manual processes, reduce DSO, and improve cash visibility.
Wednesday	11:15 AM	12:00 PM	Lapham 2	Material Logistics and its Many Uses	XA	Material Logistics (ML) is the Infor Development Framework (IDF) replacement application for InterSite Logistics (ISL) and Multi Environment InterSite Logistics (MISL). Developed to enable the multi-site or multi-company enterprise to better manage their geographically dispersed business, ML leverages PowerLink and NetLink functionality for ease of use. You now have visibility of orders, transfers, replenishments, and shipments and can account for inventory in transit, at outside processing, consignments, and even vendor managed inventory (VMI)! NASCO Healthcare will also discuss their implementation of ML for Maquiladora-zone manufacturing.

Day	Start	End	Room	Session Title	Audience	Full Description
Wednesday	11:15 AM	12:00 PM	Lapham 3	Customer Testimonial for Industrial Internet of Things/Machine Level Integration	XA	<ul style="list-style-type: none"> <li>- Controlled/uncontrolled inventory</li> <li>- Discrete Issuing</li> <li>- Barcode labeling (No-Your suppliers should not be responsible for your bar codes!)</li> <li>- Serial Numbers</li> <li>- Batch/Lot control. What is it? How does it help?</li> </ul>
Wednesday	11:15 AM	12:00 PM	Lapham 4	Bridging the gap between your CAD/PDM/PLM and Infor XA with CADLink!	XA	Tired of manually entering items and BOMs into Infor XA? Need an accurate sync between your BOMs from design to the shop floor? Join us to discover how we can seamlessly integrate your CAD, PDM, and PLM systems with Infor XA through CADLink! This session will delve into how CADLink will improve production speed, on-time shipments, and accuracy of Infor XA data while reducing engineering cost, scrapped parts and shop floor confusion. Gain transformative insights into how these enhancements elevate your business processes to new levels of synergy and productivity.
Wednesday	11:15 AM	12:00 PM	Oakton Ballroom	Successful Implementation and Expansion of EDI for Manufacturing Operations	XA	Join UniLink and our partners at Guide Technologies as we cover the current state of EDI and an analysis and ROI of your options. We will guide you through the onboarding process, driving adoption rates with trading partners, and customizing mapping to optimize integration. In addition, we will highlight the improvement in data quality, efficiency, and other business improvements that you can achieve with managed service EDI. Also, learn about Guide's EZE solution for connecting ION to Infor XA.
Wednesday	11:15 AM	12:00 PM	Woodland A	How to Answer the AI Question	All	With all the buzz around AI right now, we think that it's important that the inPOWER community has the knowledge to respond to questions from C Level management about AI. I have personally spent considerable time researching AI and how it can fit into our Infor manufacturing community. And I have found out that there are immediate applications and benefits that can be realized without great effort or expense. I think there's an exciting opportunity to educate all of the inPOWER attendees on how to get going with AI or, at a minimum, answer the AI question, Attached is a 1 slide outline of the content I propose for this presentation.
Wednesday	11:15 AM	12:00 PM	Woodland B	Discover the transformative power of Infor for CRM SLX with ERP and BI integration	All	Are you looking for a CRM solution that can help you manage your sales, service, and support departments from anywhere in the world? If so, then join us for how Infor CRM SLX can improve your organization's ability to streamline operations, increase efficiency and drive growth. Presented by Infor's only Gold CRM Partner, this session will showcase the latest features and capabilities of Infor CRM SLX and more. From easy-to-create workflows to seamless integration with Infor ERPs, this award-winning solution will transform your business today and be agile enough for tomorrow's challenges. During the session, we will cover the following topics: Overview of Infor CRM SLX and its capabilities, Seamless integration with Infor ERPs, Seamless integration with BI, Creating workflows to automate processes, Bringing the CRM inside Outlook, Using the mobile check-in feature, Activating alerts and notifications. Whether Infor CRM SLX is new to you or looking to enhance your existing knowledge, this session is a valuable opportunity to see how this solution can help improve your company's ability to manage sales, service and support departments as all of these core areas are included for every user (no tiers to sort through)! Register now and discover how Infor CRM SLX can help streamline your operations and drive your business!
Wednesday	11:15 AM	12:00 PM	Woodland C	Improve Manufacturing Operations with Warehouse Management	All	The objective of a warehouse management system (WMS) is to provide a set of computerized procedures to handle the receipt of stock into a production facility, manage the stock within the facility and enable a seamless link to production, customer order processing and logistics management in order to pick, transfer and issue materials. But Warehouse Management goes beyond the physical boundaries of the warehouse. Shop floor data collection, inventory planning, cost management, should all be incorporated into WMS. Even production management is to a great extent dependent on WMS and an efficient WMS gives a cutting edge to any organization.

Day	Start	End	Room	Session Title	Audience	Full Description
Wednesday	11:15 AM	12:00 PM	Woodland D	Document Automation for Infor IBM i ERP	System21	In this session you will learn about Cobwebb's Document Automation solutions for IBM i. The session will primarily focus on modernization and management of 'outbound' documents. The session will also discuss how Cobwebb customers have been able to streamline processes and save time through the implementation of Document Capture, OCR and Workflow technologies for 'inbound' documents.
Wednesday	1:15 PM	2:30 PM	Fieldstone East & West	Planning/Scheduling Part 3	XA	
Wednesday	1:15 PM	2:30 PM	Hearthside	Finance Part 3 - Application Integrations/General Ledger Interfaces	XA	Work through the interfaces from COM, Inventory, PCC and how to tailor them to feed the financial systems.
Wednesday	1:15 PM	2:00 PM	Lapham 1	SQL enablement on your IBM i. RunSQL Scripts, Other SQL tools	All	
Wednesday	1:15 PM	2:30 PM	Lapham 2	Procurement Part 3	XA	Procurement Continued - This session will explore the advanced topics involving XA procurement. Major topics will include receiving, QC, interplant (Material Logistics) multi-sourcing, outside operations, and PO close-out & purge.  Additional topics will include: -Vendor Managed Inventory -Blanket vs Discrete PO's -FIFO and shelf-life -Vendor Returns -ASN's -MRO items -Auto Release -Warning and error messages -Status Codes -Make/buy items -Order point vs MRP
Wednesday	1:15 PM	2:30 PM	Lapham 3	Inventory Part 3	XA	- Allow negative inventory? Yes, no, one time. - The Top 10 two letter inventory acronyms: What are they and what do they do? - TIMELY! MUST BE! Should be MOBILE. - Inspect on receipt and it's associated transactions. (PQ, MQ, RI, How to reverse a PQ.) - Transaction corrections (DO NOT USE IA), cycle counting, shelves, reversing transactions (MO - negative IP vs. reversing)
Wednesday	1:15 PM	2:30 PM	Lapham 4	Security Part 1	XA	The IBM i provides a strong foundation for object security that is integral in XA Security. This session will discuss IBM security settings and how this enables CAS Security to restrict user access to applications and data by securing application tasks. A detailed review of CAS Security features and best practices to manage and audit user authority, and a brief discussion of Personal Menus.
Wednesday	1:15 PM	2:00 PM	Oakton Ballroom	Levelling up your Customer Relationship Management: what to do when basic contact management is no longer enough	All	While Infor's ERP solutions all offer a base level of capability around managing customer records, companies that seek to provide excellent customer service often require a more robust competency for connecting the multiple points of interaction with the customer. This session will provide insight into Infor's CRM offering, and demonstrate how you can provide a consistent touch point across sales, marketing, customer service and support to enhance your customer's experience with your business.
Wednesday	1:15 PM	2:00 PM	Woodland A	Using F9 in your LX environment	LX	Using F9 in your LX environment

Day	Start	End	Room	Session Title	Audience	Full Description
Wednesday	1:15 PM	2:00 PM	Woodland B	Modernization with System21	System21	
Wednesday	1:15 PM	2:00 PM	Woodland C	Case Study: Ming.le(Portal) workflows	LX	See how a customer used workflows in the Ming.le portal to support the requisition process
Wednesday	1:15 PM	2:00 PM	Woodland D	Extend the value of your workforce with your EDI, MES, and WMS strategy	All	In this session, you're going to hear from leading experts on how businesses can complement their ERP by integrating powerful manufacturing software solutions like EDI, Manufacturing Execution Systems (MES), and Warehouse Management Software (WMS). Learn how implementing these solutions will streamline processes, reduce manual effort, automate countless tasks and actions, and ultimately free up talent to help your company expand your vision and growth.
Wednesday	2:15 PM	3:00 PM	Lapham 1	Getting Started with Access Client Solutions (ACS)	All	ACS is IBM's latest and greatest Java based, platform-independent, interface to connect to your Power systems. We will go over the basics of ACS, the Run SQL tools, and different deployment options to make moving to the software easier than ever!
Wednesday	2:15 PM	3:00 PM	Oakton Ballroom	Surrounding your Manufacturing solutions (IQM, MES, others?)	All	This session will cover Infor's strategy for extending your ERP solution with valuable and rich functional solutions to enhance your platform with complimentary manufacturing solutions to enhance your operations. (quality covered under XA section, do we need to include here?)
Wednesday	2:15 PM	3:00 PM	Woodland A	Best Practices - Controls / Audit Prep	LX	Roundtable
Wednesday	2:15 PM	3:00 PM	Woodland B	Future-Proofing RPG Applications: Navigating the Retiring Developer Challenge	All	Join us for an insightful seminar that delves into the heart of RPG development's pressing concern: the retiring developer challenge. As the industry faces a growing exodus of experienced creators, the need to future-proof RPG applications becomes paramount. In this seminar, we will explore a spectrum of strategic solutions designed to ensure the seamless continuation of your system even in the face of developer retirements. From knowledge transfer techniques to advanced code conversion tools, we'll dissect approaches that empower development teams to transcend this challenge. Don't miss this opportunity to discover how to safeguard the longevity and innovation of your RPG applications in an evolving landscape.
Wednesday	2:15 PM	3:00 PM	Woodland C	Using Alerts in IOS	LX	Use ION to intercept BODs generated by any system to send messages and notifications to users based on the content
Wednesday	2:15 PM	3:00 PM	Woodland D	Planning for and executing a smooth IBM i migration to the Cloud	All	IBM i is often the most mission critical system for your enterprise. Moving it to the cloud needs to be done correctly to assure that your users succeed at their jobs. Come and learn how this move can be done with minimal interruption along with maximum confidence in a fully operational system. We will identify items to address considerations that must be addressed for connectivity to be reliable and complete. As with many things, it's what you don't know that hurts!
Wednesday	2:45 PM	4:00 PM	Fieldstone East & West	Planning/Scheduling Part 4	XA	
Wednesday	2:45 PM	4:00 PM	Hearthside	Finance Part 4 - Month end & Year End Closing	XA	Discuss with other XA users the challenges of monthly and yearly closes. Who does what when? How are financial reports produced? How can it get better?

Day	Start	End	Room	Session Title	Audience	Full Description
Wednesday	2:45 PM	4:00 PM	Lapham 2	Procurement Part 4	XA	Procurement Continued - This session will explore the advanced topics involving XA procurement. Major topics will include receiving, QC, interplant (Material Logistics) multi-sourcing, outside operations, and PO close-out & purge.  Additional topics will include: -Vendor Managed Inventory -Blanket vs Discrete PO's -FIFO and shelf-life -Vendor Returns -ASN's -MRO items -Auto Release -Warning and error messages -Status Codes -Make/buy items -Order point vs MRP
Wednesday	2:45 PM	4:00 PM	Lapham 3	Inventory Part 4	XA	Inventory - Continued
Wednesday	2:45 PM	4:00 PM	Lapham 4	Security Part 2	XA	IFM and EFIN security concepts presented with tips to help manage user-level access using templates. Enterprise Integrator provides additional layers of security, and we will discuss field-level security vs logical transactions to secure access to specific data, content vs auto-content security concepts for restricting access to specific records, and when you might use one over the other. Followed by a review of the pros and cons of securing user definitions (cardfiles, cards, views and subsets).
Wednesday	3:15 PM	4:00 PM	Lapham 1	Navigating Navigator for i	All	The newest Navigator for i interface comes loaded with new features and powerful functions that can vastly improve your day-to-day admin of your Power system. We will be going over the basics of the new interface and look at the core modules included in the Navigator interface and how you can use them.
Wednesday	3:15 PM	4:00 PM	Oakton Ballroom	Support/Concierge (ServiceNow)	All	What is available and how to use.
Wednesday	3:15 PM	4:00 PM	Woodland A	IDF Security and EGLi	LX	Using EGLi allows your organization to take advantage of the enhanced security inherent in the Infor Development Framework (IDF). This gives you the ability to design Security at the Application, Field, Card and Content Levels. IDF helps you administer key aspects of security, from SOX, Segregation of Duties, and Data Integrity. To name a few.
Wednesday	3:15 PM	4:00 PM	Woodland B	Getting More from doing Less. How can you increase Productivity by doing Less?	All	Learn ways to improve your productivity by reducing some of the standard shop floor processes. From Receiving to Finished Goods and everything in between Paper-Less can help streamline processes, reduce errors, create visibility to empower everyone to not only make the right decision but make it quickly and accurately.
Wednesday	3:15 PM	4:00 PM	Woodland C	Workflow, messaging and widgets.	LX	See how the use of BODs generated by LX can be used to drive tasks and actions in Ming.le
Wednesday	3:15 PM	4:00 PM	Woodland D	Cloud EQ/CPQ and XA – The Big Picture and the Benefits	All	What is the Infor CPQ Cloud Suite, and what Advantages and Benefits does it bring to XA Customers? Join us as we discuss critical topics related to Infor CPQ, including an overview of the applications in the Infor CPQ Cloud Suite, CPQ's Role throughout the Enterprise, Driving Revenue Growth with CPQ, Expected Return on Investment, Leveraging Visual Configuration, Eliminating Manual Efforts, and Integrations with CRM Packages, Engineering CAD Systems, Infor's Rhythm E-Commerce Solution, and Infor ERP Software such as XA.

Day	Start	End	Room	Session Title	Audience	Full Description
Wednesday	4:15 PM	5:00 PM	Fieldstone East & West	Tailor XA to fit your company's needs	XA	Did you know XA is able to be adapted to fit your company's way of doing business? This presentation will cover tools Enterprise Integrator come with to create your own business objects as well as other standard XA tools such as compound cards, presentation schemes, subscriptions, user exits, and System-Link requests to streamline your business processes and see immediate benefits.
Wednesday	4:15 PM	5:00 PM	Hearthside	EFIN Migration	XA	
Wednesday	4:15 PM	5:00 PM	Lapham 1	Infor OS Advanced Use Case	XA	In this session you will learn how different components such as Portal, IDF, ION Connect, ION workflow, API Gateway and Infor Document Management of Infor's Digital Business Platform can be used to solve everyday business problems. The session will use a specific business requirement.
Wednesday	4:15 PM	5:00 PM	Lapham 2	Infor Visual Planner - A Customer Success Story	XA	How a job shop manufacturer in Northern Michigan went from no routings or XA planning to running MRP & Visual Planner. Share the struggles and successes and what it takes to make it happen.
Wednesday	4:15 PM	5:00 PM	Lapham 3	Top Ten Tips for Inventory Excellence	XA	transaction corrections (DO NOT USE IA), cycle counting, shelves, reversing transactions (MO - negative IP vs. reversing)
Wednesday	4:15 PM	5:00 PM	Lapham 4	What to do about Disasters?	XA	What to do about Disasters? We start business meetings with a safety check in, but how often do we think about our IT safety and what we would do in the face of an emergency? There are many threats to our ecosystems, and our IBM infrastructure does not exist in a vacuum – how does it relate to the rest of the digital footprint of the company? Where do we even start when creating a Disaster Recovery Plan? This session will introduce key terms and propose a methodology for creating, communicating, and testing a Disaster Recovery Plan.
Wednesday	4:15 PM	5:00 PM	Oakton Ballroom	Infor WMS Roadmap	All	Jerry Beaston, Infor WMS Senior Product Manager will present the highlights of the current Infor WMS release plus provide a look at what is coming in 2024 and beyond.
Wednesday	4:15 PM	5:00 PM	Woodland A	Terminal Emulation in SiW - adding your program to LX menus..	LX	Call your own programs in Terminal Emulation windows on SiW
Wednesday	4:15 PM	5:00 PM	Woodland B	The Value of RFID in Manufacturing Environments	All	This session will concentrate on the use of RFID in manufacturing environments. It will be led by Tom O'Boyle, an industry leader with over 20 years of experience in Industrial RFID implementations. Mr. O'Boyle will dive deep into the different types of RFID technologies – including active and passive RFID, the most common use cases to apply RFID on the factory floor, and where customers are deriving value from it.
Wednesday	4:15 PM	5:00 PM	Woodland C	Roundtable discussion - Modernization tools education needs / offerings	LX	
Wednesday	4:15 PM	5:00 PM	Woodland D	Introduction to IDF	All	The Infor Development Framework for the IBM i (IDF) is the technology platform spreading across Compass ERPs: first XA, then LX and System21 and soon Infinium. End users love the IDF because it breaks the shackles of screen scrapers and provides unparalleled personalization of queries. Users can select from any available column in the database, filter the data in any way they can imagine, store favorites for handy reuse and create new ones on the fly. This is an immensely popular feature but there is more. The technical staff will see how they can use IDF to extend the ERP with new functionality. IDF can even be used as a platform for new development or to modernize existing code. If you have wondered what the IDF is all about this session is for you.
Thursday	8:00 AM	8:45 AM	Fieldstone East	To Be Announced		

Day	Start	End	Room	Session Title	Audience	Full Description
Thursday	8:00 AM	8:45 AM	Fieldstone West	Using a single platform for the physical and financial supply chain	All	The last few years of unprecedented disruption has placed supply chain operations and their need to digitally transform in the spotlight. For many companies, there are aspects of their supply chain that run on manual, disconnected, and siloed processes which have always created inefficiencies, visibility gaps, and impacted performance. The new level of disruption, volatility, and uncertainty amplified the situation causing companies to reassess current processes with an eye on maximizing the customer experience while running a more cost-effective supply chain.
Thursday	8:00 AM	8:45 AM	Hearthside	ION API - Use anybody's API's from a common platform	LX	Import an api into ION, then access it from within an RPG program and an SQL statement
Thursday	8:00 AM	8:45 AM	Lakeside Ballroom North	XA Architecture – Enhanced output capability with IDF and Interform	XA	Infor is releasing upgraded forms and document output capability. This will support forms management applications like Interform, as well as introduce new native XA capabilities
Thursday	8:00 AM	8:45 AM	Lapham 1	Top 10 Housekeeping Tasks	XA	We are all responsible for our departments, processes, and data. Why would we want IT to change our systems? This top-ten list is the basic cleanup functions of your XA system. Every department has month end, balancing issues, cleanup issues. Does this sound like fun? Maybe not, but it is important. See the top-ten items you may be missing or not understanding in your day-to-day activities for XA.
Thursday	8:00 AM	8:45 AM	Lapham 2	To Be Announced		
Thursday	8:00 AM	8:45 AM	Lapham 3	To Be Announced		
Thursday	8:00 AM	8:45 AM	Lapham 4	Workspaces – what are they, how to set one up and how to apply them to everyday business challenges.	XA	Workspaces – what are they, how to set one up and how to apply them to everyday business challenges.
Thursday	8:00 AM	8:45 AM	Woodland A	Leveraging IDF to Enhance Financial Reporting	LX	The Infor Development Framework is a great tool to provide quick response financial reporting and inquires.  Standard Reporting:  Enterprise General Ledger Account Payable Accounts Receivable  Custom Reporting Covered in a separate session.
Thursday	8:00 AM	8:45 AM	Woodland B	MES/MV2 Migration from MDCC	XA	Join this session to hear Sean Carney, Director of Customer Success, discuss how to migrate from MDCC to MES/MV2, and overall upgrade processes. You'll learn about updates to the product core as well as integrations, recent feature enhancements, and user experience.
Thursday	8:00 AM	8:45 AM	Woodland C	Visual Planner - Beyond Traditional MRP	XA	The Infor Visual Planner for System i, includes an infinite-based visual planning application that meets the need for visual, graphical, and advanced planning. VPI lets you interactively plan production and purchase orders, simultaneously considering both material and resource/labor requirements, to meet forecasted and actual customer requirements.

Day	Start	End	Room	Session Title	Audience	Full Description
Thursday	8:00 AM	8:45 AM	Woodland D	CPQ Hands-on Workshop - Part 1 - Entering Quotes and Orders in EQ, 2D Parametric Automatic Drawing, Generating Quote Documents, and IDM. Bring your laptops and mobile devices to get hands-on experience with Infor CPQ. Please register, if participating in 1, 2, or all 3 sessions <a href="https://www.eventbrite.com/e/Infor-cpq-workshop-tickets-676083613287">https://www.eventbrite.com/e/Infor-cpq-workshop-tickets-676083613287</a>	All	CPQ Hands-on Workshop - Part 1 - Entering Quotes and Orders in EQ, 2D Parametric Automatic Drawing, Generating Quote Documents, and IDM Bring your laptops and mobile devices to get hands-on experience with Infor CPQ.
